Fax: 706-453-9555

March 8, 2013

To the Honorable Members of the Greene County Board of Commissioners  
and the Citizens of Greene County, Georgia:

State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements based on generally accepted accounting principles generally accepted in the United States of America and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Greene County, Georgia for the year ended September 30, 2012.

This report consists of management's representations concerning the finances of Greene County, Georgia. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of Greene County has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of Greene County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, Greene County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Greene County's financial statements have been audited by Clifton, Lipford, Hardison & Parker, L.L.C., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Greene County, Georgia for the year ended September 30, 2012, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements assessing the accounting principals used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that Greene County's financial statements for the year ended September 30, 2012, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Greene County's MD&A can be found immediately following the report of the independent auditors.

### **Profile of the Government**

Greene County was created in 1786 and was named for Revolutionary War hero General Nathaniel Greene. The County is located in east central Georgia, approximately 75 miles east of Atlanta and in close proximity to

Augusta, Athens, and Macon. Lake Oconee, Georgia's second-largest man-made lake, establishes the western border of the County. The Cities of Greensboro, Union Point, White Plains, Siloam and Woodville are all located within the County. However, the majority of the 15,994 residents live in unincorporated areas of the 403 square mile area.

The governing authority consists of a five-member Board of Commissioners, including a part-time chairman elected at-large, and four part-time commissioners elected within districts. The commissioners are responsible for passing ordinances, adopting the budget, establishing tax rates, appointing committees, and appointing the County Attorney. The County Manager, appointed by the Board of Commissioners, manages the day-to-day operations for the County.

Greene County provides a full range of services, including law enforcement with a detention facility that houses 125 inmates; maintenance of streets, highways, bridges, and other associated infrastructure; voter registration and elections; the court system; tax assessment and collection; planning, zoning, and development; building inspections; a geographic information system; animal control; ambulance services; emergency management; and senior services. The County also contracts with a third party to provide curb-side pickup to all County residents and utilizes special tax districts to fund nine volunteer fire departments throughout the County.

#### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the boarder perspective of the specific environment within which Greene County operates.

#### **Local Economy**

Greene County was part of a select group within Georgia to have achieved an initial Aa3 rating by Moody's Investors Service in 2008. Obligations rating Aa3 are judged to be of high quality and are subject to very low credit risk. This rating considered the County's healthy financial position, characterized by solid reserve levels and a manageable debt level, which was easily covered by the County's rapidly expanding tax base. This rating put Greene County in the same rating category as much larger counties with more substantial tax bases. In 2010, this rating was upgraded to an Aa2 rating.

Approximately 56% of the workforce in Greene County works in the service industry, which includes retail trade, real estate, professional services, accommodation services and health care. The largest sector employed by the service industry is Accommodation & Food Services (18%), followed by Retail Trade (11.4%) and Health Care & Social Assistance (10.3%). While agriculture and manufacturing have decreased in recent years, this industry still employs 28.5% of the workforce. Of this sector, construction consists of 12.4% of the total workforce, while manufacturing is 7.9% and agriculture is 7.3%.

Greene County's unemployment rate was 9.1% in September 2012, much higher than the 7.6% national level and the 8.6% state level. However, this amount has remained consistent with the state and national levels over the past few years, due mainly to the economic downturn that has hit the entire nation. Residential and commercial building dramatically decreased throughout the County in the past few years, resulting in decreased jobs for the construction industry. However, construction activity is beginning to improve. Permits have been issued for several homes and a new hospital. Despite some good news, the Commissioners realize that the unemployment rate in Greene County is still extremely high, and continue to seek new industry to bring Greene County citizens the jobs that are so desperately needed.

## **Long-Term Financial Planning**

In July 2008, voters approved a \$31 million SPLOST referendum, which allows collections to continue from January 2009 through 2014. This SPLOST has provided funding for several capital projects, including recreation facilities and equipment; public safety buildings, vehicles and equipment; public buildings, facilities and equipment; and roads and bridges.

Also in July 2008, voters approved the issuance of \$15,000,000 of general obligation bonds to pre-fund the SPLOST projects. In September 2008, the general obligation bonds were issued. By pre-funding the SPLOST projects, Greene County is able to capitalize on the lower costs of construction, giving the taxpayers more for each dollar spent.

As the economy has shifted, SPLOST collections have decreased, making it almost impossible to meet the \$31 million originally estimated. Therefore, the Commissioners continue prioritizing projects to ensure that projects with the most benefit to the County are completed, while still being able to maintain the current debt service levels.

## **Major Initiatives**

The County continues to update our current road system to facilitate more traffic in the future. Several road projects are underway to help ease congestion, improve roads, and widen roads. These projects are being funded by utilizing the SPLOST V Bonds, applying for grant funding, and utilizing prior years' fund balance. The County opened the Richland Connector in July 2012, which is Phase I of improving the east-west connectivity in the southern end of the County. The Richland Connector provides citizens better access to public safety aid and opens large, undeveloped tracts of land for residential and commercial use. Planning and right-of-way acquisition of Phase II of this project is underway.

The County's commitment to public safety continues to shine. In order to make ambulance services more accessible to citizens in the southeastern end of the county, the Commissioners voted to erect a new EMS station on the newly-opened Richland Connector. Construction is currently underway on a 6,450 square-foot ambulance station, which will provide living quarters for EMS personnel on shift and will store ambulances and other vehicles. The station will also house a back-up 911 center purchased as part of the upgrade to the 800MHz radio system. The system can be activated almost immediately in the event that the 911 center's base of operations in town is not functioning properly, ensuring citizen access to the various public safety departments is not interrupted.

The County continues the process of redistricting. Despite some legal setbacks with the original submission, the Commissioners submitted a new redistricting plan in December 2012 and await word on pre-clearance from the U.S. Justice Department.

The Board of Commissioners is also evaluating a request made to the County for indigent care funding for the local hospital. The County currently provides \$360,000 annually, which is less than funding provided by neighboring counties to their local hospitals. The County recognizes the significant benefits realized by the community through a new hospital, but any increased funding for indigent care must be justified. To that end, the County is developing standards to define what constitutes indigent care and what qualifies an individual as indigent, which will allow the County to maintain the balance between the potential of raising additional tax funds, with the justification to demonstrate the legitimacy of the need.

In January 2013, the Commissioners approved a vision statement to solidify the direction Greene County should take and a mission statement to determine how to get there. According to its vision statement, the Greene

County Board of Commissioners is pledged to provide its citizens responsible government with the highest standard of ethics and professional conduct that is mindful of the needs of all citizens to live in a safe and prosperous environment. In order to fulfill its vision, the mission of the Greene County Board of Commissioners is to maintain rigorous financial discipline and efficiency while providing those essential and fundamental public safety services, necessary and appropriate governmental services, and pursuing economic growth that is meaningful for the future of Greene County and all of its citizens.

#### **Relevant Financial Policies**

Management of Greene County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance of the safeguarding of assets and the proper recording of financial transactions.

The Commissioners voted in September 2009 to maintain budgetary control at the summary line item level within departments. Department heads and constitutional officers can shift budgetary line items as long as the line items are included in the same summary line items within their respective departments (i.e., Personnel, Other Operating Expenses, and Capital Outlay). No changes between summary line items or increases in the overall budget can be made without the approval of the Board of Commissioners.

#### **Awards & Acknowledgements**

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to Greene County, Georgia for its comprehensive annual financial report for the fiscal year ended September 30, 2011. This was the fourth year that Greene County has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the various departments throughout the County and the expertise of the staff of Clifton, Lipford, Hardison & Parker, L.L.C. We would like to express our sincere appreciation to all members of the various departments that assisted and contributed to the preparation of this report. Credit must also be given to the Board of Commissioners for its leadership and unfailing support in maintaining the highest standards of professionalism in the financial management of Greene County.

Respectfully submitted,

Byron Lombard  
County Manager

**INDEPENDENT AUDITOR'S REPORT**

Board of Commissioners  
Greene County, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Greene County, Georgia as of and for the fiscal year ended September 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Greene County, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Greene County Board of Health, which represent 54 percent, 100 percent, 32 percent, respectively, of the assets, net assets, and revenues of the aggregate component units of Greene County, Georgia. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Greene County Board of Health, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Greene County, Georgia, as of September 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 8, 2013 on our consideration of Greene County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

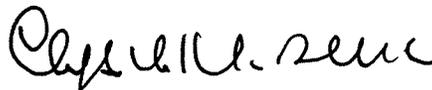

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages 10 through 20, the schedule of funding progress on page 70, and the schedule of OPEB funding progress on page 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Greene County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements, the schedule of project expenditures with special sales tax proceeds, and the schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of project expenditures with special sales tax proceeds, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Greene County, Georgia's basic financial statements. The introductory section and statistical tables are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Macon, Georgia  
March 8, 2013

## **MANAGEMENT'S DISCUSSION & ANALYSIS**

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012

As management of the Greene County Board of Commissioners, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended September 30, 2012. We encourage readers to consider the information presented here in conjunction with the information that we have furnished in the transmittal letter.

**FINANCIAL HIGHLIGHTS**

- The assets of the County's Primary Government activities exceeded its liabilities as of September 30, 2012, by \$55,041,809.
- As of September 30, 2012, total net assets consisted of \$35,417,250 invested in capital assets net of related debt, \$4,658,431 restricted for capital outlay, \$382,489 restricted for public safety, \$140,386 for other restrictions and \$14,443,253 unrestricted. Unrestricted net assets may be used to meet the County's ongoing obligations to citizens and creditors.
- As of September 30, 2012, the County's governmental funds reported ending fund balance of \$16,060,630, a decrease of \$368,274 in comparison with the prior year.
- As of September 30, 2012, the County's General Fund reported ending fund balance of \$10,902,864, a decrease of \$22,461 in comparison with the prior year.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The statements within the first component are government-wide financial statements that provide both long-term and short-term information about the County's overall financial status in a manner similar to a private-sector business.

The statements within the second component are fund financial statements that focus on individual parts of the County government, reporting the County's operations in more detail than the government-wide statements.

**Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances. The statements provide both short-term and long-term information about the County's financial position, which assists in assessing the economic condition at the end of the fiscal year. These two statements include the Statement of Net Assets and the Statement of Activities.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

all or a significant portion of their costs through administrative fees and charges (business-type activities). The governmental activities of the County include general government, courts, public safety, public works, health & welfare, culture & recreation, and special projects. The business-type activities of the County is the Emergency Medical Service (Ambulance Service) and Sanitation.

The government-wide financial statements include not only Greene County Government itself (known as the primary government), but also the component units of Greene County. Financial information for the component units are reported separately from the financial information presented for the primary government itself. The Greene County Airport Authority and the Greene County Health Department are legally separate organizations that are included in the County's reporting entity because of the significance of the operational and financial relationships with the County. Data for the component units is presented in separate columns to emphasize that each component unit is legally separate from the County.

### **Fund Financial Statements**

The remaining statements are fund financial statements that focus on individual parts of the County government, reporting the County's operations in more detail than the government-wide statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Greene County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Greene County can be divided into the following categories: 1) major governmental funds, 2) major proprietary funds, 3) non-major special revenue funds, 4) non-major capital projects funds, and 5) agency funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spend-able resources, as well as balances of spend-able resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Greene County maintains fourteen (14) individual governmental funds.

### **Major Governmental Funds**

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the General Fund and the Special Purpose Local Option Sales Tax V Fund, which are considered to be major funds. Data from the other twelve (12) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of both combining statements and individual fund statements elsewhere in this report.

The County adopts an annual appropriated budget for its general fund, special revenue funds and debt service funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

**Major Proprietary Funds**

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for the Emergency Medical Services (Ambulance Service) and Sanitation operations. The Emergency Medical Services Fund accounts for the operations of the ambulance service. The Sanitation Fund accounts for the garbage fee that is charged on each tax bill and the costs of the curb-side service that is offered to each residential home in Greene County. It also accounts for the cost of the operation of the Convenience Center, which is reimbursed through a transfer by the General Fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the EMS and Sanitation Funds.

**Non-Major Special Revenue Funds**

Special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes. Greene County has nine (9) special revenue funds to include the Law Library Fund, E-911 Fund, State Seizure Fund, Federal Seizure Fund, Drug Abuse Treatment & Education Fund, Victims Assistance Fund, Jail Fund, the Hotel/Motel Tax Fund and the Fire District Fund. Individual fund data for each of these non-major governmental funds is provided in the form of both combining statements and individual fund statements elsewhere in this report.

**Non-Major Capital Projects Funds**

Non-major capital projects funds are used to account for the activity on unique projects that involve specified revenue from grants and/or loans that are best managed and accounted for as a separate fund. The Carey Station Village Fund, the 800 MHz Fund, and the Airport Improvements Fund are the non-major capital projects fund used by the County. Individual fund data for this non-major governmental fund is provided in the form of both combining statements and individual fund statements elsewhere in this report.

**Agency Funds**

Agency funds are used to account for the assets and liabilities of the Constitutional Officers to include the Superior Court, Probate/Magistrate Court, Tax Commissioner, and the Sheriff's Office. Individual fund data for each of these non-major governmental funds is provided in the form of both combining statements and individual fund statements elsewhere in this report.

**Notes to the Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Government-wide Financial Analysis**

Net assets may serve over time as a useful indicator of a government's financial position. In the case of Greene County, assets exceeded liabilities by \$55,041,809 at the close of the most recent fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

The following table provides a summary of the County's governmental and business-type net assets for fiscal year 2011 and 2012:

GREENE COUNTY, GEORGIA'S NET ASSETS							
	Governmental Activities		Net Assets Business-type Activities		Totals		
	2012	2011	2012	2011	2012	2011	
<b>Assets</b>							
Current and other assets	\$ 26,738,651	\$ 28,582,235	\$ 2,516,568	\$ 2,492,628	\$ 29,255,219	\$ 31,074,863	
Capital assets, net of accumulated depreciation	44,075,290	42,166,097	328,444	367,924	44,403,734	42,534,021	
<b>Total assets</b>	<b>70,813,941</b>	<b>70,748,332</b>	<b>2,845,012</b>	<b>2,860,552</b>	<b>73,658,953</b>	<b>73,608,884</b>	
<b>Liabilities</b>							
Current and other liabilities	11,126,980	12,433,254	960,521	964,250	12,087,501	13,397,504	
Long-term liabilities	6,525,706	9,181,199	3,937	-	6,529,643	9,181,199	
<b>Total liabilities</b>	<b>17,652,686</b>	<b>21,614,453</b>	<b>964,458</b>	<b>964,250</b>	<b>18,617,144</b>	<b>22,578,703</b>	
<b>Net assets</b>							
Invested in capital assets, net of related debt	35,088,806	30,754,119	328,444	367,924	35,417,250	31,122,043	
Restricted	5,181,306	5,598,449	-	-	5,181,306	5,598,449	
Unrestricted	12,891,143	12,781,311	1,552,110	1,528,378	14,443,253	14,309,689	
<b>Total net assets</b>	<b>\$ 53,161,255</b>	<b>\$ 49,133,879</b>	<b>\$ 1,880,554</b>	<b>\$ 1,896,302</b>	<b>\$ 55,041,809</b>	<b>\$ 51,030,181</b>	

A portion of the County's net assets (64.3%) reflects its investment in capital assets (e.g., infrastructure, land, buildings, machinery, equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. Investment in capital assets net of related debt increased by \$4,295,207 in FY2012, due mainly to upgrades to our E-911 Center equipment, the upgrade to an 800 MHz radio system throughout the County, and various road construction projects.

These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although Greene County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted net assets decreased \$417,143 in the current year due to debt service payments made in the SPLOST V Fund in the current year. By pre-funding the SPLOST V projects with the issuance of general obligation bonds, the net asset balance will continue to diminish as projects and debt service payments are expensed.

**Governmental Activities**

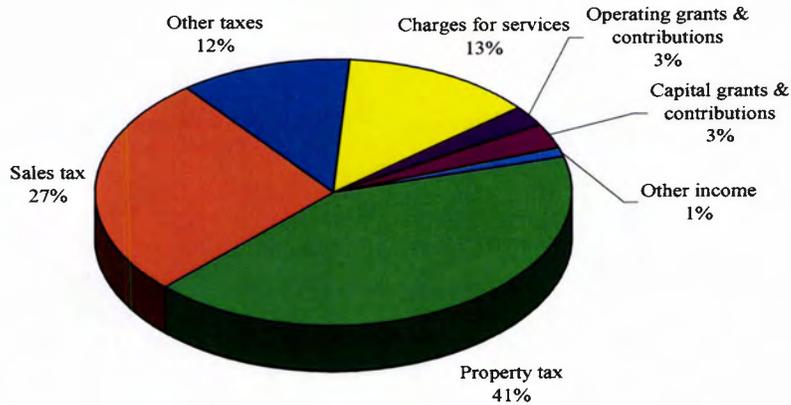

Governmental activities increased the County's net assets by \$4,017,165 in FY2012, accounting for 100 percent of the total increase in net assets. Revenues from governmental activities increased \$1,809,083. Total tax revenues increased \$1,895,298. Increased consumer confidence in the economy and a slight increase in the property tax millage rate led to these increases. Charges for services also increased \$349,633. However, not all revenues increased. Because of unusually high grant revenues in the previous year, capital and operating grants dropped significantly in the current year. Capital grant revenues fell \$290,762, while operating grants fell \$256,004. As a

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

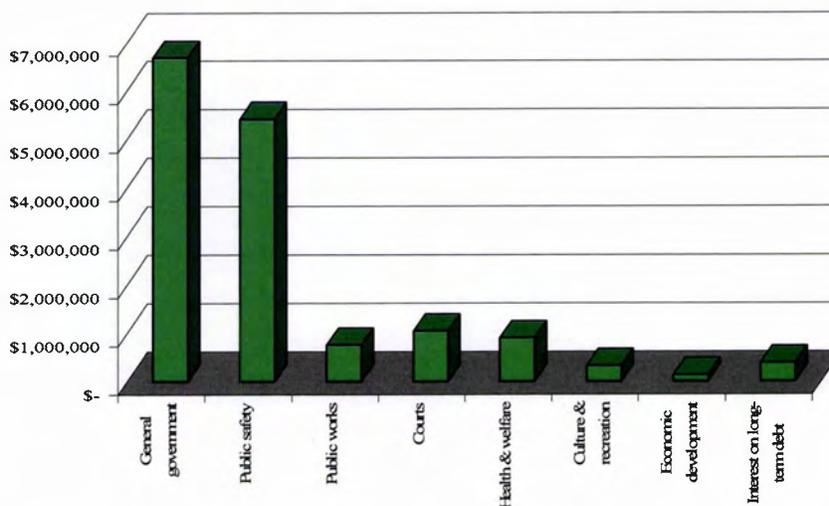

direct result of the economy, interest revenues dropped \$19,098, or approximately 41.4 percent. Total revenues for governmental activities are as follows:

**Revenues - Governmental Activities**

Expenses from governmental activities decreased \$1,091,062, or approximately 6.5 percent. General government expenses increased by \$969,442 due to an increase in amounts paid out to other entities and to a decrease in capital outlay expenditures in the current year. Public safety expenses decreased by \$91,674 due to an increase in depreciation expense for recent equipment purchases. Public works expenses decreased by \$1,871,497 as road construction projects are nearing completion. Total expenses by category are shown in the following chart.

**Expenses - Governmental Activities**

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

**Proprietary Activities**

Proprietary activities decreased the County's assets by \$15,748. Ambulance crews continued at the pace set in FY2011 with 2,767 dispatches and 1,093 out-of-town transports. Though total dispatches decreased by 0.6% from FY2011, more expensive out-of-town transports increased by 1.7%, increasing the overall revenues by 0.8%. Despite the increase in ambulance fees, EMS fund net assets decreased by \$15,748, due in large part to a decrease in transfers in from the general fund. In prior years, the general fund transferred in enough funds to cover total payroll expenses for the EMS fund, resulting in an increase in net assets each year. In order to keep the net assets from growing at the expense of the general fund and to encourage self-sufficiency, the general fund only transferred an amount the county felt necessary to cover the anticipated shortfall of the EMS fund. As a result, the transfers were kept to a minimum and resulted in a \$15,748 shortfall. The Sanitation fund had no change in net assets because the general fund covers any shortfalls, which are typically related to the operation of the recycling center that the sanitation fees are not designed to cover.

**FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State Law. The Board of Commissioners establishes other funds to control and manage money for particular purposes (like the purchase or construction of major capital facilities within the County) or to show that it is properly using certain taxes and grants (like the one cent special local option sales tax).

**Governmental Funds**

Most of the County's basic services are included here, such as public safety, public works, culture and recreation and general administration. These focus on (1) cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Such information is useful in assessing Greene County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Greene County's governmental funds reported combined ending fund balances of \$16,060,630 a decrease of \$368,274 in comparison with the prior year. Reasons for this decrease are discussed in the paragraphs below.

Approximately 43.2% percent or \$6,944,871 of this amount constitutes unassigned fund balance, which is available for spending at the government's discretion. A significant portion (\$5,181,306) is restricted and can only be used for specific purposes, while \$3,000,000 of fund balance is committed to future road projects. Assigned amounts total \$221,000. Nonspendable amounts totaling \$713,453 are also shown because these amounts, by nature, cannot be spent in their present form. These amounts include prepaid insurance, inventories, and notes receivable. Please refer to the notes to the financial statements for more information regarding the levels of fund balance.

**General Fund**

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$6,968,411, while \$713,453 is considered nonspendable (prepaid insurance, inventories and notes receivable). The Commissioners voted in September 2010 to commit \$3,000,000 for future road projects. These road projects are expected to take place over the next few fiscal years. The County also chose to assign \$221,000 for the purchase of new tractors and equipment for the road department. These purchases were finalized shortly after the fiscal year end. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

53.4 percent of total general fund expenditures, while total fund balance represents 83.8 percent of that same amount.

The fund balance of the County's General Fund decreased by \$22,461. General Fund revenues increased by \$432,241 from FY2011. The most significant revenue increase in the General Fund was property tax revenues (\$518,725), due to an increase in the millage rate. A boost to the economy led to an increase in sales tax revenues of \$124,457 and license and permit revenues of \$5,001. Intergovernmental revenues decreased (\$291,202), due to various grants received by federal and state entities in the prior year. General Fund expenditures decreased by \$780,944 from FY2011. The most significant expenditure changes in the General Fund are as follows:

- General government expenditures decreased by \$577,246. Two employees were transferred from full-time to part-time positions in planning & zoning, while one position was eliminated from governmental properties. Also, the County has been without an Extension Agent since February 2012. Legal fees dropped substantially (\$43,337) when the lawsuit between the Sheriff and Commissioners was settled. Building maintenance expenditures also decreased significantly (\$63,473) after several large-scale maintenance projects were completed in FY2011. Special projects dropped in FY2012 after the EOC/E-911 renovation project was completed.
- Public works expenditures increased by \$935,651 due mainly to road contracts issued for the White Plains Road and Richland Connector projects.
- Public safety expenditures increased by \$101,999. The Sheriff's Office did not request payment for any fuel from the General Fund in FY2011; however, they did request \$191,581 for fuel in FY2012. Expenditures for inmate meals dropped \$25,804 from the prior year due to significant decreases in the County's prison population. EMA expenditures also dropped \$52,837 after equipment purchases were made in the prior year.
- Debt service expenditures decreased significantly (\$1,237,463) in 2012 due to the payoff of outstanding debt on the Administration Building in FY2011. No additional debt is outstanding for the General Fund.

**SPLOST V Fund**

The fund balance for the Special Purpose Local Option Sales Tax V (SPLOST V) Fund decreased \$496,127 in the current year. Several SPLOST V projects were pre-funded with the issuance of general obligation bonds in FY2008. Although \$3,492,749 in SPLOST revenues were received this year, these revenues were set aside for future debt payments, which increase each year. New estimates for SPLOST V revenues are well short of the \$31 million originally estimated. Therefore, the Commissioners continue to monitor the incoming revenues and to re-prioritize the remaining SPLOST V projects.

**Other Non-major Governmental Funds**

Non-major governmental funds had an increase of \$150,314 to overall fund balance in the current year. The Drug Abuse Treatment and Education Fund had no expenditures in FY2011 or FY2012, so all revenues added to its fund balance (\$29,769 in FY2012). In FY2013, the County chose to utilize these funds for eligible expenditures relating to a drug treatment program that previously received general tax dollars. The Sheriff's State Seizure fund contributed \$33,234 to this increase as confiscations increased in the current year. The E-911 fund increased its fund balance by \$31,625 in the current year. With the new 800 MHz system, the County was able to eliminate monthly charges for circuits that the new system replaced. However, future maintenance costs associated with the 800 MHz system will require additional support from the general fund.

The only fund with a deficit in FY2012 was the Carey Station Village Capital Projects Fund. The Carey Station Village Capital Projects fund was originally set up to account for the special assessment tax monies collected to cover the tax anticipation note that was used to finance much needed road improvements in Carey Station Village. Each year all tax proceeds collected related to the Special Assessment are applied to the loan, which is renewed for the outstanding balance. In FY2012, this fund had a deficit of \$23,540, which was a reduction of \$71,330 from FY2011. The reduction is the result of the principal portion of the loan payment made in May 2012 and amounts collected but not yet applied to the loan as of September 30, 2012. In March 2012, the Commissioners voted to

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

reduce the annual assessment from \$300 to \$100 per parcel on the 2012 tax bill, which was due December 1, 2012. This reduced assessment will be the final assessment made and the loan will be paid in full in April 2013. Any amounts remaining outstanding will continue to be pursued by the Tax Commissioner's office for collection.

**Proprietary Funds**

Greene County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. At the end of the current fiscal year, net assets invested in capital assets, net of related debt for the EMS Fund was \$328,444. Unrestricted net assets totaled \$1,552,110. The total decrease in net assets was \$15,748. The General Fund limited its payroll subsidy to the EMS Fund to only \$622,605 in the current year, instead of covering total payroll as in prior years. The Sanitation Fund had no net assets at September 30, 2012. Other factors concerning the finances of these funds have already been addressed in the discussion of the County's business-type activities.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The most significant budgeted fund for the County is the General Fund. The Board of Commissioners amended its policy regarding budget adjustments in FY2010. The Board approved a new policy in October 2009 requires the Commissioners to approve budget amendments between line items that are not within the same summary level (Personnel, Other Operating Expenditures and Capital Outlay). If line items are within the same summary level, the County Manager can approve the adjustment. This change resulted in a large increase to the number of budget adjustments made throughout the year.

General Fund revenues were \$1,067,332 higher than budgetary estimates, while expenditures were \$1,214,748 less than budgetary estimates. Operating transfers out were less than budgetary estimates by \$378,064, while operating transfers in were more than budgetary estimates by \$58,462. Major budget adjustments in the current year included utilizing prior years' fund balance to construct various roads (\$2,459,916) and to complete the 800 MHz system (\$281,151). The County also utilized amounts budgeted for contingencies to cover a one-time stipend for employees (\$37,972) and a portion of the Victim's Advocate position for the District Attorney's (\$15,366). Adjustments were also made to increase the overall budget for \$91,979 to cover grant funds associated with the Section 5311 (transit) program that were received and expensed.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

The County's investment in capital assets for its governmental and business-type activities as of September 30, 2012 amounts to \$44,403,734 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, equipment, and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the County, such as roads, bridges, streets and sidewalks, drainage systems, and other similar items. Only infrastructure acquired and built after September 30, 2003 is included in capital assets.

The total net increase in the County's investment in capital assets for the current fiscal year was approximately 4.4% (an increase of 4.5% for governmental activities and a decrease of 10.7% for business-type activities). The increase in governmental funds is due to the completion of SPLOST and road projects. Business-type activities did not acquire any equipment in the current year. Therefore, the only capital asset activity was depreciation on existing aging equipment, resulting in a net decrease to the investment in capital assets for business-type activities.

In FY2012, the County received a donation for infrastructure that was improved with grant funds from the Airport Authority. Additional information on the County's capital assets can be found in Note 10 of the notes to the financial statements of this report.

**ECONOMIC FACTORS**

Like much of the nation, noticeable improvement is starting to show in Greene County's economy. The unemployment rate dropped again from 10.10 percent as of September 2011 to 9.1 percent in September 2012. The County rate is higher than both the state rate of 8.6 percent and the national rate of 7.6 percent, but has decreased over the past two years. Several small businesses throughout Greene County have closed and some larger businesses have had to layoff individuals over the past few years to ensure their survival. However, new small businesses continue to come into the County.

GREENE COUNTY BOARD OF COMMISSIONERS  
GREENSBORO, GEORGIA

MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2012  
(CONTINUED)

Residential construction in the County continues at a very slow pace. Although total permits issued decreased from 2011, the values of residential projects increased to \$37,840,917, up 22.5% from 2011. The value of commercial projects in Greene County per permit records is only \$3,787,849, which decreased 22.2% from 2011. In March 2012, Saint Mary's Good Samaritan Hospital purchased land for a new hospital site in Greene County. Construction began in the fall of 2012. This construction will greatly increase the permits & fees in FY2013. The County hopes that it will also spur additional growth in the County.

Most property values in the County appear to have leveled out. However, a large property owner entered foreclosure in the current year and was sold. This sale was much lower than the County had previously valued the property. Therefore, this sales price will need to be considered in valuations as of January 1, 2013. The County is still evaluating how this sale will affect other properties throughout the County. The assessed values of property in Greene County dropped by 2.2% in tax year 2010 (FY2011) and dropped another 12% for the 2011 tax bills (FY2012). Property values are expected to decrease through 2013. These decreases greatly impact the County's ability to maintain its current level of services without increasing the millage rates to make up the difference.

Tourism in Greene County has also had its struggles, but is continuing to rebound. After dropping almost 28% (\$271,727) from 2008 to 2009, hotel/motel taxes rose by 6% to \$758,689 in 2011 and rose again by 11.8% to \$848,066 in 2012. Although the revenues are still down significantly from the highs experienced from 2006 through 2008, signs of recovery are a welcome feeling in this industry.

Sales taxes remain as volatile as the current economy. Sales taxes experienced a major decrease from 2008 to 2009 (23.8%), rebounded slightly in 2010 with an increase of almost 10%, and decreased 3.5% in FY2011. Sales taxes rebounded again in 2012 with an increase of 6.5%. Long-term projections for the Special Local Option Sales Taxes (SPLOST) revenues still seem unlikely that the original \$31 million will be collected as estimated. Because Greene County pre-funded these projects with the issuance of General Obligation bonds in FY2008, the County needs to ensure that it has adequate funding for the debt service payments in addition to the actual costs of the projects. The County is working to reprioritize its projects to ensure that it can maximize the benefit citizens get from these funds without having to establish other funding sources to finance the projects.

The commissioners continue trying to further reduce expenditures because failure to do so will result in an increase to the millage rate in order to continue the same level of services citizens currently enjoy. In September 2011, Commissioners voted to increase the millage rate to 5.559. Although most wished to decrease it, the Commissioners voted to increase the millage rate in order to keep up with the decreased value in the tax digest and remain revenue neutral. Keeping the millage rate low is a top priority for the commissioners in order to minimize the tax burden for the citizens of Greene County and to encourage investment and spur growth throughout the County.

The County's bond rating, as rated by Moody's Investor Services, is currently Aa2. With this rating, Moody's continues to recognize the County's strong financial position, which compares to several larger counties throughout the state. An Aa2 rating indicates a "very strong creditworthiness relative to other U.S. municipal or tax-exempt issuers." The commissioners recognize the importance of a strong financial position, even if it means making very difficult decisions in the current economy.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of Greene County, Georgia's finances for anyone with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Mr. Byron Lombard, County Manager, 1034 Silver Drive, Suite 201, Greensboro, Georgia, 30642.

GREENE COUNTY, GEORGIA

RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES  
OF GOVERNMENTAL FUNDS TO THE  
STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2012

Excess (Deficit) of Revenues and Other Financing Sources Over (Under) Expenditures and Other Uses Per Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances      \$    (368,274)

Amounts reported for governmental activities in the Statement of Activities differ from amounts reported in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund

Capital Assets

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is depreciated over their estimated useful lives and reported as

Total capital outlays	4,682,369
Total depreciation	(2,773,176)

Net pension asset is not available during the current period and therefore is not reported in the funds.	
Change in net pension assets	12,639

Long-term Debt

Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The adjustments for these items are as follows:

Bonds payable	2,340,000
Compensated absences	16,170
Increase in OPEB liability	(34,044)
Accrued interest on bonds payable	6,825
Amortization of issuance costs	(44,583)
Amortization of bond premium	85,494

Change in investment in joint venture	(83,680)
---------------------------------------	----------

Revenues

Because some revenues will not be collected for several months after the government's fiscal year end, they are not considered available revenues and are deferred in the governmental funds.

Deferred revenues decreased by this amount during the fiscal year.	177,425
--	---------

Change in Net Assets of Governmental Activities	\$ 4,017,165
---	--------------

The notes to the financial statements are an integral part of this statement.

**NOTES TO THE FINANCIAL STATEMENTS**

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Accounting Policies**

Greene County was established under the provisions of an Act of the General Assembly of Georgia. The County operates under a county commissioner form of government, and provides the following services as authorized by state law, general administrative services, public safety, roads and bridges, courts and health and welfare.

The accounting policies of Greene County, Georgia conform to generally accepted accounting principles as applicable to governments. The following is a summary of the County's more significant policies applied in the preparation of the accompanying financial statements.

**A. Reporting Entity**

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of Greene County (the primary government) and any component units. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The component units discussed below are included in the County's reporting entity because of the significance of their operational and financial relationships with the County. In conformity with generally accepted accounting principles, as set forth in Statement of Governmental Accounting Standards No. 14, *The Financial Reporting Entity*, which was adopted by the County as of October 1, 1995, the financial statements of each component unit have been included as a discretely presented component unit. The component unit columns in the combined financial statements include the financial data for the Greene County Airport Authority, as of September 30, 2012 and the Greene County Board of Health, as of June 30, 2012. The financial information for the component units is reported in columns separate from the County's financial information to emphasize that it is legally separate from the County.

**Greene County Airport Authority (Airport Authority)**

The Airport Authority is charged with developing and maintaining the Greene County Airport. The Board consists of five members appointed by the Greene County Board of Commissioners. The County provides significant operating subsidies to the authority. The Airport Authority is presented as a governmental fund type. The Greene County Airport Authority issued separate financial statements that have a September 30th year-end. Complete financial statements of the Greene County Airport Authority may be obtained from their administrative office at the following location:

Greensboro, Georgia 30642

**Greene County Health Department (Health Department)**

The Health Department is charged with determining the health needs and resources of its jurisdiction, developing programs, activities, and facilities responsive to those needs, and enforcing all laws related to health matters unless they fall under the jurisdiction of other agencies. The Health Department is governed by the Greene County Board of Health (Board). The Board includes seven members representing government, health professions, and the needy. The County appoints the voting majority of the board. The County provides significant operating subsidies to the department. The Health Department is presented as a governmental fund type. The Greene County Health Department issued separate financial statements that have a June 30 year-end, as required by state statutes. Complete financial statements of the Greene County Health Department may be obtained from their administrative office at the following location:

Greene County Health Department  
1031 Apalachee Avenue  
Greensboro, Georgia 30642

**Greene County Law Library (Blended Component Unit)**

The Greene County Law Library is an entity separate from the County. For financial reporting purposes, the Law Library is reported as if it were a part of the County's operations, because the Law Library primarily serves the courts of the County. The Law Library does not issue separate financial statements. Any capital assets purchased by the Law Library become the property of Greene County.

A joint venture has the following characteristics:

- It is a legal entity that results from a contractual agreement
- It is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control
- Participants retain an ongoing financial interest or an ongoing financial responsibility.

The following is a joint venture with five cities: Greensboro, Union Point, Woodville, Siloam, and White Plains.

Greene County Parks and Recreation Department – The department is responsible for providing recreational opportunities to the citizens of Greene

County. Greene County provides 60% of the budget, while the five cities provide 40%. The department submits annual budget requests to the County. Total equity interest in the net assets of the joint venture as of September 30, 2012 was \$1,704,841. The Greene County Parks and Recreation Department issued separate financial statements that have a September 30th year-end, as required by state statutes. Complete financial statements of the Greene County Parks and Recreation Department may be obtained from their administrative office at the following location:

2741 Old Union Point Road  
Greensboro, Georgia 30642

Under Georgia law, the County, in conjunction with other cities and counties in the eight county west central Georgia areas, is a member of the Northeast Georgia Regional Commission (RC) and is required to pay annual dues thereto. Membership in an RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. The RC Council membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RC. Separate financial statements may be obtained from:

Northeast Georgia Regional Commission  
305 Research Drive  
Athens, Georgia 30605-2795

**B. Government-Wide and Fund Financial Statements**

The government-wide financial statements (Statement of Net Assets and Statement of Change in Net Assets) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

**Government-Wide Financial Statements**

The government-wide financial statements are reported using the flow of economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided; 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

**Fund Financial Statements**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, local option sales taxes, other taxes, intergovernmental revenues, interest, and charges for services associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenues are considered to be measurable and available only when cash is received by the government.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the County's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The fund financial statements provide more detailed information about the government's most significant funds, not the government as a whole. The activities of the government are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The government reports the following major governmental funds:

General Fund – The General Fund is the government's primary operating fund. It is used to account for and report all financial resources not accounted for and reported in another fund.

SPLOST V Fund –The SPLOST V Fund is used to account for the proceeds and various projects associated with the SPLOST V.

The government reports the following major proprietary funds:

EMS Fund – The EMS fund accounts for charges for emergency services provided to the general public.

Sanitation Fund – The Sanitation fund accounts for charges for sanitation services provided to the general public.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

Additionally, the government reports the following fund types:

Special Revenue Funds – Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Capital Project Funds - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Agency Funds – Agency Funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

**D. Deposits and Investments**

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Investments are reported at fair value, which is determined using selected bases. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates, and investments that do not have an established market are reported at estimated fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

**E. Receivables**

Receivables and Due from Other Governments represent funds to be received from other local governments, state grant-in-aid, state contracts, or federal funds. No allowance is deemed necessary for these receivables.

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" or "advances to/from other funds." All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables, have been reduced to their estimated net realizable value, and are shown net of an allowance for doubtful accounts. Estimated uncollectible amounts are based upon historical experience rates.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**F. Inventories**

Inventories of expendable supplies held for consumption are not considered material and are recorded as expenditures, or expenses, as appropriate, when purchased. Inventory in the General Fund consists of fuel, which is priced at cost using the First-In-First-Out method.

**G. Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items in both government-wide and fund financial statements.

**H. Capital Assets**

Capital assets, which include property, plant equipment and infrastructure assets (e.g. roads, bridges, sidewalks and similar items acquired subsequent to October 1, 2003) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Property, plant, and equipment capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Infrastructure capital assets are defined by the government as assets with an initial, individual cost of more than \$20,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense incurred by the County during the current fiscal year was \$390,321. Of this amount, none was applicable to construction of capital assets.

Property, plant and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Building	25-40 years
Equipment	5-20 years
Infrastructure	50 years
Furniture	5 years
Vehicles	5 years

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**I. Compensated Absences**

It is the County's policy to permit employees to accumulate earned by unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide; proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**J. Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance cost, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**K. Fund Equity**

In the financial statements, governmental funds report the following classifications of fund balance:

- Nonspendable – amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- Restricted – amounts are restricted when constraints have been placed on the use of resources by (a) externally imposed by creditors, grantors, contributors or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed – amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners through adoption of a resolution. The Board of Commissioners also may modify or rescind the commitment.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2012  
 (CONTINUED)

- Assigned – amounts that are constrained by the County’s intent to be used for specific purposes, but are neither restricted nor committed. By resolution, the Commissioners has authorized the County Manager to assign fund balances.
- Unassigned – amounts that have not been assigned to other funds and that are not restricted, committed or assigned to specific purposes within the General Fund.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County’s policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

The County does not have a formal minimum fund balance policy.

The following is a summary of the fund balance classifications as of September 30, 2012:

	General Fund	SPLOST V	Nonmajor Governmental	Total
<b>Fund Balances:</b>				
<b>Nonspendable</b>				
Inventory	\$ 36,360	\$ -	\$ -	\$ 36,360
Prepays	157,093	-	-	157,093

<b>Total fund balances</b>	<b>\$ 10,902,864</b>	<b>\$ 4,658,431</b>	<b>\$ 499,335</b>	<b>\$ 16,060,630</b>

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**L. Risk Management**

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; and errors or omissions. The County purchases commercial insurance for most types of risk. For these risks, settlements have not exceeded coverage's for each of the past three fiscal years. The County had no significant reduction in insurance coverage from coverage in the prior year.

The County has joined together with other municipalities in the state as part of the ACCG Group Self Insurance Workers' Compensation Self Insurance Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments. The Fund is to defend, in the name of and on behalf of the members, any suits or other proceedings, which may at any time be instituted against them on account of injuries or death within the preview of the Workers' Compensation Law of Georgia, or on the basis of employer's liability. The Fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense. For the year ending September 30, 2012, the County's total contribution was \$147,055 for the Workers Compensation Fund.

The County is a member of the ACCG Interlocal Risk Management Agency (ACCG-IRMA). This agency functions as a risk sharing arrangement among Georgia County governments and is administered by the Association of County Commissioners of Georgia (ACCG). The purpose of ACCG-IRMA is to establish and administer one or more group self-insurance funds; to establish and administer a risk management service; and to prevent or lessen the incidence or severity of casualty and property losses. Each member pays an annual contribution established by the Board of ACCG-IRMA. For the period October 1, 2011 - October 1, 2012, the County's total contribution was \$200,921. ACCG-IRMA may develop and issue such self-insurance coverage descriptions, as it deems necessary. The current coverage provides a \$1,000,000 general liability limit with a \$5,000 per occurrence deductible.

As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pools' agents and attorneys to represent the Government in investigation, settlement discussions and all levels of litigation arising out of any claim made against the Government within the scope of loss protection furnished by the funds.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**NOTE 2 – BUDGETS AND BUDGETARY ACCOUNTING**

**A. Budget Process**

The annual budget document is the financial plan for the operation of Greene County. The budget process exists for the purpose of providing a professional management approach to the establishment of priorities and the implementation of work programs while providing an orderly means for control and evaluation of the financial posture of the County.

The County prepares a separately issued budget report. An annual operating budget is prepared for the General and Special Revenue Funds. Prior to year end the County Manager of the County Commissioners submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them. The Board of Commissioners holds a public hearing on the budget, giving notice thereof in advance by publication in the official organ of Greene County. The budget is then revised and adopted or amended by the Board of Commissioners at a regular meeting before the year to which it applies. The budget so adopted may be revised during the year only by formal action of the Board of Commissioners in a regular meeting and no increase shall be made therein without provision also being made for financing same. The County Manager may authorize transfers between line items within the same summarized object classification. The legal level of control is at the summary line item within the department.

Formal budgetary integration is employed as a management control device during the year. The budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). The General Fund is subject to budgetary control at the summary line item within the department, while the Special Revenue funds are subject to budgetary control on an individual fund basis. Budgets are prepared for the Capital Projects Funds on a project basis, which usually covers two or more fiscal years. Budgeted amounts are as originally adopted, or as amended by the Board of Commissioners. Individual amendments are not material in relation to the original appropriations.

**B. Encumbrances - Reconciliations**

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to serve that portion of the applicable appropriation, is not employed by the County. Budget to Generally Accepted Accounting Principal Basis reconciliation's are not required.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

C. **Deficit Fund Equity**

The Carey Station Village capital projects fund had a deficit fund balance of \$23,540. The fund incurred expenditures prior to the receipt of special assessment taxes. The County plans to eliminate this deficit with future special assessment taxes.

**NOTE 3 – DEPOSITS AND INVESTMENTS**

A. **Custodial Credit Risk – Deposits**

The custodial credit risk of deposits is the risk that in the event of the failure of a bank, the government will not be able to recover deposits. The County's bank balances of deposits as of September 30, 2012 are entirely insured or collateralized with securities held by the County's agent in the County's name. State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

The Greene County Airport Authority, a discretely presented component unit, bank balances of deposits as of September 30, 2012 are entirely insured or collateralized with securities held by the Authority's agent in the Authority's name. State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

The Greene County Board of Health, a discretely presented component unit, bank balances of deposits as of June 30, 2012 are entirely insured or collateralized with securities held by the Board's agent in the Board's name. State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

B. **Investments**

	<u>Credit Rating</u>	<u>Investment Value</u>	<u>Weighted Average Maturity</u>
Office of the State Treasurer	AAAm rated	\$ 5,709,666	24 day

*Custodial credit risk.* For an investment, the custodial risk is the risk that in the event of the failure of the counter-party to a transaction, an entity will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Office of State Treasurer is not required to disclose custodial credit risk. The County had no such investments with such risk as of September 30, 2012.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

*Interest rate risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit risk.* Georgia law allows investments in obligation of the U.S. Treasury, other U.S. Governmental Agencies, State of Georgia, other states, prime banker's acceptances, repurchase agreements, other political subdivisions of Georgia and the Office of the State Treasurer investment pool. The Office of the State Treasurer is not registered with the SEC. The State of Georgia Office of Treasury operates Office of the State Treasurer in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940. Office of the State Treasurer is a stable net asset value investment pool that follows Standard & Poor's criteria for AAAM rated money market funds. The County does not have a formal policy relating to the credit risk of investments.

**NOTE 4 – PROPERTY TAXES**

State law requires that property taxes be based on assessed value, which is 40% of market value. All real and personal property (including motor vehicles) is valued as of January 1 of each year and must be returned for tax purposes by March 1. With the exception of motor vehicles and the property of public utilities, which are valued by the State Revenue Department, all assessments are made by the Board of Tax Assessors of Greene County.

Exemptions are permitted for certain inventories. A homestead exemption is allowed for each taxpayer that is a homeowner and resides in the household as of January 1. There are other exemptions provided by state and local laws.

Upon completion of all assessments and tax returns, the information is turned over to the County Tax Commissioner for compilation of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval. The State Revenue Commissioner must ascertain that real property on the tax digest has been assessed at the state mandated forty percent (40%) of fair market value. The Commissioner has the option to withhold certain state funding if the mandated 40% level is not reached.

The Greene County Tax Commissioner distributes tax notices and collects tax payments. Motor vehicle taxes are due based upon the birthday of the owner. The 2012 property taxes were levied on August 31st, and mailed during September, with a due date of December 1st. Property tax receivables have been reduced to their estimated net realizable value. Estimated uncollectible amounts are based upon historical experience rates and result in a direct reduction of the related revenue amount at the end of the period. The 2012 tax digest has been reported as unearned in the government-wide statement of net assets, since this digest was approved to finance the 2013 budget.

Special Revenue	-	-	983	983
Capital Projects	-	-	3,320	3,320
<b>Total</b>	<b>\$ 18,893</b>	<b>\$ 624,761</b>	<b>\$ 120,017</b>	<b>\$ 763,671</b>

The amounts due from state government are primarily for sales tax and grant funds.

**NOTE 9 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS**

The composition of interfund balances as of September 30, 2012, is as follows:

Due to / from other funds:

Receivable Fund	Payable Fund	Amount
General Fund	EMS Fund	\$ 389,282
	Nonmajor Governmental Fund	122,389
Sanitation Fund	General Fund	69,930
Nonmajor Governmental Fund	General Fund	20,061
<b>Total</b>		<b>\$ 601,662</b>

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

	Transfer In:				Total
	General Fund	EMS	Sanitation	Nonmajor Governmental	
Transfer Out:					
General Fund	\$ -	\$ 622,605	\$ 170,318	\$ 823,159	\$ 1,616,082
Nonmajor Funds	556,812	-	-	-	556,812
<b>Total</b>	<b>\$ 556,812</b>	<b>\$ 622,605</b>	<b>\$ 170,318</b>	<b>\$ 823,159</b>	<b>\$ 2,172,894</b>

Transfers are used to move unrestricted revenue to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching fund for various grant programs.

For the governmental activities, compensated absences, net pension obligation, and net other post employment benefit obligations are generally liquidated by the general fund.

**General Obligation Bonds**

On September 25, 2008, the County issued the \$15,000,000 Greene County, Georgia, General Obligation Sales Tax Bonds Series 2008.

The Series 2008 Bonds were issued to (a) finance a portion of the “County Projects”, including (i) roads, streets, bridges, and sidewalks, (ii) fire protection facilities and equipment, (iii) recreation facilities and equipment, (iv) jail facilities and equipment, (v) airport facilities and equipment, (vi) administrative facilities and equipment, (vii) library facilities and equipment, (viii) a rural education and farm service center, and (ix) public safety equipment; (b) pay capitalized interest; and (c) pay certain costs of issuing the Series 2008 Bonds. Interest on the General Obligation Sales Tax Bonds, Series 2008 is variable ranging from 4% to 5% over the life of the bonds. Interest is to be paid semi-annually on March 1 and September 1 of each year and principal is to be paid on March 1. The County incurred issuance costs associated with the Series 2008 Bonds of \$312,083 which are being amortized on a straight-line basis over the life of the bonds. Total amortization expense for fiscal year 2012 was \$44,583. Total interest paid for fiscal year 2012 was \$387,650. Annual debt service requirements to maturity for this bond issue are as follows:

**NOTE 12 – TAX ANTICIPATION LOAN**

In September 2004, the County borrowed \$335,000 in a tax anticipation note to finance the road improvement project for the Carey Station Village Community. The note bore fixed interest at 3.380% per annum and was due on June 1, 2005. The tax anticipation note will be paid back with property taxes received from the Carey Station Village community. The original tax anticipation note was paid by June 1, 2005. The total payment of principal and interest on the original tax anticipation note was \$343,435.

In May 2012, the County borrowed \$50,251 in a tax anticipation note to pay off the sixth tax anticipation note that was due on May 20, 2012. The seventh tax anticipation note bore fixed interest at 2.438% per annum and is due on May 20, 2013. Total interest paid during fiscal year 2012 was \$2,671.

Short-term debt activity for the year ended September 30, 2012 was as follows:

	Beginning Balance	Additions	Deductions	Ending Balance
Tax Anticipation Loan	\$ 98,341	\$ 50,251	\$ 98,341	\$ 50,251

**NOTE 13 – EMPLOYEE RETIREMENT PLANS**

**A. ACCG Defined Benefit Plan**

**Plan Description**

The County contributes to the Association County Commissioners of Georgia ("ACCG") Defined Benefit Plan ("Plan"), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating Counties in Georgia. ACCG issues a publicly available financial report that includes financial statements and required supplementary information (RSI) for the Plan. That report may be obtained by writing to GEBCorp, 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339 or by calling (800) 736-7166.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**Participation**

All full-time County employees are eligible to participate in the Plan after completing three years of service.

**Retirement Benefits**

Benefits vest after five years of service. Participants become eligible to retire at age 65 with 3 years in the Plan. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 0.5% of average annual compensation up to \$6,600 plus 1.0% of average annual compensation in excess of \$6,600 plus \$36 for each year of service payable as a life annuity. Service is limited to 35 years. Compensation is averaged over a five-year period prior to retirement or termination. The Plan also provides benefits in the event of death or disability. These benefit provisions were established by an adoption agreement executed by the County Board of Commissioners.

**Actuarial Assumptions**

1. Rate of return on the investment of present and future assets of 7.75% per year.
2. Projected salary increases of 4.0% - 6.5% based on age.
3. Market value asset valuation method was used.
4. Postretirement benefit increases - none.
5. Inflation rate assumption of 3.0% per year.
6. Actuarial Value of assets – Smoothed market value with a 5-year smoothing period.

Future salary increases are age banded. Termination rates are age and service banded.

**Contributions Required and Contributions Made**

County employees are not required to contribute to the Plan. The County contributes the entire cost of the Plan, using the actuarial basis described in the annual valuation report. Contributions were made in accordance with actuarially determined contribution requirements. Contributions made during a particular year are attributable to the prior Plan year. ACCG Plan funding policy provides for making required actuarially determined periodic contributions under the "Projected Unit Credit" actuarial cost method. This cost method determines plan liabilities consistent with the standardized measure of pension obligation described by Statement No. 5 of the Governmental Accounting Standards Board (GASB #5). In addition, this cost method determines contributions at rates that, for individual employees, increase gradually as an employee gets older, and enables sufficient assets to accumulate when benefits become due. The unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The weighted average remaining amortization period as of January 1, 2005, was 10 years.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

The significant actuarial assumptions used to compute the actuarially determined contribution requirements are the same as those used to compute the net pension obligation.

Contributions totaling \$390,178 (\$390,178 employer and \$-0- employee) were made in accordance with actuarially determined contribution requirements determined by an actuarial valuation performed as of January 1, 2012.

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish and amend from time to time, the contribution rates for the County and its plan participants.

**Actuarial Reports**

The County's practice is to have an actuarial valuation performed every year on the pension plan, and to base the succeeding year's contributions on the result of the valuation. The actuarial valuation is performed as of January 1 every year. This recent valuation was performed as of January 1, 2012 based upon employee data as of January 1, 2012 and based upon available pension assets as of January 1, 2012.

**Current Plan Membership and Payroll**

Employee membership data related to the plan membership as of January 1, 2012 is as follows:

Retirees and beneficiaries currently receiving benefits	11
Terminated employees entitled to benefits but not yet receiving them	47
Current active employee	130
Disabled in Pay Status	<u>1</u>
Total Membership in the plan	<u>189</u>

The County's covered payroll as of January 1, 2012, (the most recent actuarial valuation date) was \$4,921,170. Total payroll was \$6,013,293.

**Summary of Plan Asset Matters and Accounting Policies**

The Plan's financial statements are prepared on an accrual basis, modified to include unrealized gains or losses on marketable securities owned by the Plan and incremental changes in the cash value of pre-retirement life insurance policies owned by the trust.

Investments in securities are valued at current market prices. The trust fund is invested, approximately, in 60% equities and 40% fixed income securities on a cost basis.

Plan assets do not include any loans, notes, bonds or other instruments or securities of the County or related parties.

**Analysis of Funding Progress**

Measurement Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (b)	Funded/ (Assets in Excess of) AAL (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	Unfunded (Assets in Excess of) AAL as a Percentage Covered Payroll {(b-a)/c}
12/31/2011	\$ 2,505,147	\$ 3,542,400	\$1,037,253	70.7%	\$ 4,921,170	21.1%

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan net assets is increasing or decreasing over time relative to the actuarial accrued liability.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2011.

**B. Other Retirement Plans**

Other employees are covered under the following retirement plans that are not under the direct control of the County.

**a. Defined Contribution Plan**

The County has established the Greene County 401(a) Defined Contribution Plan through adoption of the ACCG 401(a) Defined Contribution Program. The plan was established to provide benefits at retirement to Greene County employees. The County contributes 2% on behalf of all employees with at least one year of employment. The County will match up to an additional 5%, if the employee contributes 5% to the Greene County Deferred Compensation 457 Plan. Total contributions for the fiscal year ended September 30, 2012 were \$258,466 (\$258,466 employer and \$-0- employee). The County has delegated certain administrative responsibilities to ACCG, or its designee. Plan provisions are established and may be amended by the Board of Commissioners.

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**b. Deferred Compensation Plan**

The County offers employees the Greene County Deferred Compensations Plan created in accordance with Internal Revenue Code Section 457. An independent third party plan administrator administers the plan. As a result, the assets and liabilities of the plan are not recorded on the County's financial statements. All contributions to this plan are voluntary employee contributions.

**c. Probate Judges' Retirement Fund of Georgia**

The Probate Judge is covered under a pension plan, which requires that certain sums from marriage licenses and fines or bond forfeitures be remitted to the pension plan before the payment of any costs of other claims.

**d. Clerk of Superior Court Retirement Fund**

The Clerk of Superior Court is covered under a pension plan, which requires that certain sums of fees and fines or bond forfeitures be remitted to the pension plan before payment of any costs or other claims.

**e. Sheriff's Retirement Fund/Peace Officer's Annuity and Benefit Fund**

The Sheriff and his deputies are covered under separate pension plans, which require that certain sums from fines or bond forfeitures be remitted by the Probate Court, Magistrate Court or Clerk of Superior Court to the pension plan before the payment of any costs of other claims.

**f. Extension Service Employee Retirement Fund**

Employees of Greene County Agriculture Extension Service are covered under the Teachers Retirement System of Georgia. A contribution is made by the General Fund.

**NOTE 14 – POST-EMPLOYMENT BENEFITS**

**Plan Description**

Greene County sponsors the single-employer defined benefit Greene County Post-Retirement Medical Plan (the "Plan"). The Plan is administered and contributions and benefits may be amended by the County Board of Commissioners. The plan provides medical and prescription coverage to all employees retiring with Greene County that have completed 15 or more years of services. Healthcare benefits for retirees and active employees are provided through the County's self-insurance program. Expenditures for postretirement healthcare benefits are recognized as retirees report claims and include a provision for estimated claims incurred but not yet reported to the County. During the year, expenditures of \$0 were recognized for

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2012  
 (CONTINUED)

postretirement healthcare. These post employment benefits are financed on a pay-as-you-go basis and are not included as part of the County's defined benefit pension plan. The plan does not issue a stand-alone financial report.

**Eligibility**

To be eligible for this benefit upon retirement, the employee must be 65 years of age and have completed fifteen years of service.

**Retirement Options/Benefit Provisions**

Eligible retirees are offered the same health and prescription drug coverage as active employees. The retirees pay 100% of the premium.

**Annual OPEB Cost and Net OPEB Obligation**

The County's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The County has implemented GASB 45 on a prospective basis.

The schedule of the County's cost and contributions follows:

Fiscal Year	Annual OPEB Cost	Actual County Contribution	Percentage of AOPEBC Contributed	Net OPEB Obligation End of Year
2012	\$ 34,044	\$ -	0.0%	\$ 103,725
2011	23,227	-	0.0%	69,681
2010	23,227	-	0.0%	46,454
2009	23,227	-	0.0%	23,227

**Components of Net OPEB Obligation:**

Annual Required Contribution	\$ 34,483
Interest on Net OPEB Obligation	6,265
Adjustment to Annual Required Contribution	<u>(6,704)</u>
Annual OPEB Cost	34,044
Contributions Made	<u>-</u>
Increase in Net OPEB Obligation	34,044
Net OPEB Obligation, beginning of year	<u>69,681</u>
 Net OPEB Obligation, end of year	 <u><u>\$ 103,725</u></u>

GREENE COUNTY, GEORGIA

NOTES TO THE FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2012  
 (CONTINUED)

As of September 30, 2012, there are no retirees utilizing this plan. Contributions will commence as retirees elect to take advantage of this benefit. The annual OPEB Cost represents the expense associated with current active employees.

As of the most recent actuarial valuation date, October 1, 2011, the funded status of OPEB Plan was as follows:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	(UAAL) Unfunded Actuarial Accrued Liability	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
10/1/11	\$ -	\$ 251,791	\$ 251,791	0.0%	\$ 4,921,170	5.1%

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Assumptions:

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect at October 1, 2011. The assumptions used in the October 1, 2011 actuarial valuation are as follows:

Cost Method	Projected Unit Credit
Actuarial Asset Valuation Method	Market Value
Investment Rate of Return	4.5%
Inflation Rate Assumption	3.0%
Projected Salary Increases	3.0%
Healthcare Cost Trend Rate	5%
Amortization Method	Level Percent of Payroll (Open)
Remaining Amortization Period	27 years

**NOTE 16 – CONTINGENT LIABILITIES**

**A. Litigation**

During the course of normal operations of the County, various claims and lawsuits arise. The County attorney has advised that there are no potential liabilities that will impair the position as of the date of this audit report.

**B. Federal Grants**

The County participates in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives, and the audits of these programs for or including the year ended September 30, 2012, have not yet been conducted. Accordingly, the County's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012  
(CONTINUED)

**NOTE 17 – COMPONENT UNITS**

**Greene County Board of Health**

*Reporting Period Disclosures*

The Greene County Board of Health has a fiscal year ending June 30. The information presented in this report represents the fiscal year ending June 30, 2012. Due to the differing year ends, transfers to component units and due to component units presented in the primary government financial statements do not equal the corresponding transfers from and due from primary government presented in the component unit financial statements. A reconciliation of these differences is as follows:

Per Component Unit:

Transfer from primary government	\$	91,003
Less: July 11 – Sept 11		(22,751)
Add: July 12 – Sept 12		<u>22,751</u>
Per Primary Government:		
Transfer to component unit	\$	<u>91,003</u>

2007	1,231,887	1,677,015	73.46%	445,128	2,951,807	15.08%
2006	1,003,272	1,427,867	70.26%	424,595	2,720,381	15.61%
2005	810,481	1,285,676	63.04%	475,195	2,305,855	20.61%

\* - Reflects change to asset smoothing adopted by the ACCG Pension Plan and Trust Board of Trustees

SCHEDULE OF EMPLOYER CONTRIBUTIONS

Year Ended 9/30	Annual Required Contribution	Percentage Contributed
2012	376,971	103.50%
2011	385,769	104.56%
2010	302,939	102.86%
2009	265,800	103.73%
2008	235,408	104.01%
2007	195,345	104.48%
2006	174,602	106.14%

GREENE COUNTY, GEORGIA

SCHEDULE OF OPEB FUNDING PROGRESS  
 REQUIRED SUPPLEMENTARY INFORMATION  
 FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2012

Actuarial Valuation Year	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Funded Ratio (a/b)	Unfunded (Assets in Excess of AAL) (b-a)	Annual Covered Payroll (c)	Ratio of Unfunded to Annual Covered Payroll
10/1/2011	\$ -	\$ 251,791	0.0%	\$ 251,791	\$ 4,921,170	5.1%
10/1/2008	-	153,142	0.0%	153,142	3,572,096	4.3%

Analysis of the dollar amounts of actuarial value of assets available for benefits, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing the net assets available for benefits as a percentage of the actuarial accrued liability provides an indication of funding status on a going concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the Plan.

Trends in unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the Plan's progress in accumulating sufficient assets to pay benefits when due. Generally, the smaller the percentage, the stronger the plan.

See assumptions used for the schedule of funding progress in Note 15 to the financial statements.

**SUPPLEMENTARY INFORMATION**

**(THIS PAGE INTENTIONALLY LEFT BLANK)**

# **NONMAJOR GOVERNMENTAL FUNDS**

## **SPECIAL REVENUE FUNDS**

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Law Library Fund – This fund accounts for the resources received from the various courts of Greene County and disbursements for the support of a centralized law library.

E-911 Fund – This fund accounts for the E-911 fees collected and disbursements for the operation of the E-911 call center.

State Seizure Fund – This fund accounts for State condemned funds received and disbursed for Law Enforcement expenditures.

Federal Seizure Fund – This fund accounts for Federal condemned funds received and disbursed for Law Enforcement expenditures.

Drug Abuse Treatment Fund – This fund accounts for fines collected as required by State Law for drug abuse treatment and educational purposes.

Victims Assistance Fund – This fund accounts for resources received from the various courts of Greene County for assistance to victims of crime.

Jail Fund – This fund accounts for fines collected as required by State Law for jail operations and construction.

Hotel/Motel Tax Fund – This fund accounts for the hotel/motel taxes collected and expenditures relative to tourism.

Fire District Fund – This fund accounts for tax monies received from the special tax district established to provide fire services to Greene County residents.

## **CAPITAL PROJECTS FUNDS**

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Carey Station Village Fund – This fund accounts for special assessment tax monies being collected to repay a tax anticipation note that was used for road improvements.

MHZ Project Fund – This fund accounts for the grant received associated with the purchase of a new communications system.

Airport Improvements Fund – This fund is used to account for the various airport grants received and passed through to the Airport Authority.

NOTES Accrual-basis financial information for the County Government as a whole is available back to September 30, 2004, the year GASB Statement 34 was implemented. Amounts presented for fiscal year 2004 have been restated for the effects of the prior period adjustment recorded in fiscal year 2005, which reflected an addition to capital assets in the amount of \$1,467,571 relating to road projects in fiscal year 2004. In 2006, all activity for the Greene County Airport Authority was shown as a component unit. However, due to various grant and intergovernmental agreements, all assets for the Airport Authority are donated back to the County at the end of each year. In fiscal year 2006, the County also reclassified the charges for the curb-side pickup from general government to public works. Sanitation was included in a separate fund in 2009. In prior years, it was included as a department within the General Fund.

NOTES: The substantial increase in reserved fund balance in 2008 is due to the issuance of the SPLOST bonds. The substantial increase in unreserved fund balance in 2008 is due to the recognition of revenues relating to the 2007 and 2008 tax digests. The Board of Commissioners set the 2007 millage rate in October 2007 and the 2008 millage rate in August 2008, requiring the County to recognize revenues from both tax digests.

Overlapping rates are those of local and county governments that apply to property owners within the County. Not all overlapping rates apply to all County property owners (e.g. the rates for special districts apply only to proportion of the government's property owners whose property is located within the geographic boundaries of the special district).

SOURCE: Georgia Department of Revenue

NOTES: Retail sales information was provided by calendar year and includes total amounts collected for Local Option Sales Tax (LOST) and Special Local Option Sales Tax (SPLOST) county-wide. Intergovernmental agreements entered with the cities resulted in the following distribution of LOST funds: County - 58.8%; City of Greensboro - 22.5%; City of Union Point - 11.6%; City of White Plains - 2.0%; City of Woodville - 2.8%; and City of Siloam - 2.3%. The County receives the total SPLOST proceeds.

In May 2009, the Georgia Department of Revenue changed how it categorized businesses that remitted sales taxes. The Department changed from SIC groupings to NAICS groupings.

SCHEDULE 11  
GREENE COUNTY, GEORGIA

SOURCE: City Governments, Greene County Board of Education

\* Greene County Board of Education amounts are reported as of June 30, 2012

NOTES: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Greene County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

SOURCE: Greene County Human Resources

NOTES: A full-time employee is scheduled to work 261 days per year (365 minus two days off per week). At eight hours per day, 2,088 hours are scheduled per year (including vacation and sick leave). Full-time-equivalent employment is calculated by dividing total labor hours by 2,088. The County took over the operations of the EMS department in June 2004. Although 15 people were employed when the operations started, the full-time-equivalent for the year equalled 8.

GREENE COUNTY, GEORGIA

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2012

**NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying schedule of expenditures of Federal Awards includes the federal grant activity of Greene County, Georgia under programs of the federal government for the fiscal year ended September 30, 2012. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of Greene County, Georgia, it is not intended to and does not present the financial position, changes in net assets or cash flows of Greene County, Georgia.

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

***Measurement Focus***

The determination of when an award is expended is based on when the activity related to the award occurs.

***Program Type Determination***

Type A programs are defined as Federal programs with Federal expenditures exceeding the larger of \$300,000 or three percent of total Federal expenditures. The threshold of \$300,000 was used in distinguishing between Type A and Type B programs.

***Method of Major Program Selection***

The risk-based approach was used in the selection of Federal programs to be tested as major programs. The County did qualify as a low-risk auditee for the fiscal year ended September 30, 2012.

***Amount Provided to Sub-recipients***

The total amount provided to subrecipients from each major program is as follows:

<u>U.S. Department of Transportation</u>		
Phase III-Paving and Lighting for Runway Ext.	CFDA 20.106	\$ 60,836
Phase II – Condemnation for Property Acquisition	CFDA 20.106	<u>537,074</u>
Total U.S. Department of Transportation		<u>\$ 597,910</u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER  
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Board of Commissioners  
Greene County, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Greene County, Georgia as of and for the year ended September 30, 2012, which collectively comprise Greene County, Georgia's basic financial statements and have issued our report thereon dated March 8, 2013. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Greene County Board of Health, as described in our report on Greene County, Georgia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

**Internal Control Over Financial Reporting**

Management of Greene County, Georgia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Greene County, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Greene County, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Greene County, Georgia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Greene County, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests and those of other auditors disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT  
ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE  
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB  
CIRCULAR A-133**

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners  
Greene County, Georgia

**Report on Compliance for Each Major Federal Program**

We have audited Greene County, Georgia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Greene County, Georgia's major federal programs for the fiscal year ended September 30, 2012. Greene County, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Greene County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Greene County, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Greene County, Georgia's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Greene County, Georgia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended September 30, 2012.

**Report on Internal Control Over Compliance**

Management of Greene County, Georgia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Greene County, Georgia's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Greene County, Georgia's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

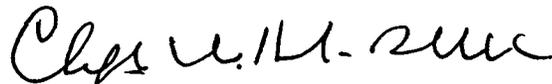

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of Greene County, Georgia as of and for the year ended September 30, 2012, and have issued our report thereon dated March 8, 2013, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.
